DRYTIS

YOUR TECH COFOUNDER

Offer Letter

Dear Arya Anand Kulkarni,

We are pleased to extend this offer of employment to you for the position of AI Computer Science Engineer at Drytis, based on the discussions and your demonstrated skills and experience. We believe your technical expertise and problem-solving mindset will be a valuable addition to our growing engineering team.

Position Details

- Designation: AI Computer Science Engineer
- Employment Type: Independent Contractor
- Work Location: Remote

Role Overview

As an AI Computer Science Engineer, you will work on Drytis's AI-powered coding platform, providing hands-on technical support to clients through real-time and asynchronous sessions. The role involves a blend of advanced AI development, prompt engineering, full stack coding, debugging, and direct client collaboration. You will engage with clients using cloud-based development environments, contribute to real- world software solutions, and actively participate in improving internal processes and platform performance.

Compensation Structure

Compensation: $4.28 - $17.15 per hour (based on experience, skill level, and engagement type) **Payment Cycle**: As per company contractor payment policy or as defined in the contractor agreement.

Benefits:

- Fully remote work
- Flexible working hours
- Exposure to cutting-edge AI coding tools
- Opportunity to work with global clients on high-impact projects

Key Expectations

- Strong proficiency in Python, JavaScript, or similar programming languages
- Hands-on experience with AI-assisted coding tools, LLMs, and prompt engineering
- Ability to debug, refactor, and deploy full-stack applications

- Excellent English communication skills, especially in client-facing scenarios
- Comfort working independently in a fast-paced, remote environment

Commencement of Employment
Your expected date of joining will be [Insert Date], subject to the successful completion of onboarding formalities and submission of required documents

Confidentiality s Conduct
You are expected to maintain strict confidentiality regarding Drytis's proprietary information, client data, and internal systems during and after your engagement with the company. Professional conduct and adherence to company policies are mandatory at all times.

Acceptance of Offer
Please sign and return a copy of this letter as a confirmation of your acceptance of the offer and the terms mentioned herein.

We are excited about the possibility of you joining Drytis and contributing to building the future of AI-powered software development.

Warm regards,
Thomas Eide
